

# Be Green, Buy Green, Grow Green

**Canon U.S.A. is partnering with the Arbor Day Foundation to help give back to the environment.**

Through its partnership with the Arbor Day Foundation, Canon will plant a tree for every imageRUNNER ADVANCE model sold from January 1, 2012 through June 30, 2012.

The imageRUNNER ADVANCE Series incorporates an array of environmentally conscious features designed to help reduce CO2 emissions over the entire product lifecycle.

Each tree planted helps add new life to those areas where trees have been lost, serving to enrich the land, provide wildlife habitat, and protect the soil and waterways.

For more information about this program, please contact your local Canon Authorized Dealer.

Canon will provide a certificate to customers in recognition of their purchase and acknowledgement of trees to be planted in their honor.

**Together, with The Arbor Day Foundation, we're helping our customers leave a green footprint on the Earth for the benefit of future generations.**
